

HELPS CREATE A WATER-PROOF BARRIER

CREATE A SECONDARY WATER-SHEDDING BARRIER

WeatherLock® Self-Sealing Ice & Water Barrier

Designed to protect the roof where water tends to collect, including valleys, vents, chimneys and skylights.

Deck Defense® Roof Underlayment

Features a durable, synthetic construction that helps shield from moisture infiltration. Provides roof deck protection from UV exposure for up to 6 months.*

ProArmor® Synthetic Roof Underlayment

Fusion Back Coating Technology adds a unique bottom surface coating, reducing the chance for tears that cause leaks, as compared to other felt underlayment.
